December Issue of IRC Ama-chewer

Next Meeting      Friday November 26

Ben Gaither will describe his Tri-band Quad with a complete set of slides showing all the details of construction. If you are thinking of going for a Quad, this is for you. No long hair theory but lots of practical info on a subject Ben found to have very little practical info available!

### SURPRISE AUCTION

Several weeks ago Myron McKee W9ARK called and said he was going to move into an apartment and that he had to clean house. He is donating this surplus (Not Army surplus) gear to the club for an Auction, with all proceeds to go to the Treasury! How 'bout that? So we will have all of this hauled up to Club meeting for a whing-ding. We will, for anything over \$15.00 hold it for thirty days with a 10% deposit, if any one needs it. So tell your friends, borrow some money from the XYL and come early. There is a BC221-T a Sony Tape Transport, a Heathkit Preamp, tubes, Cabinets full of bolts and nuts, Tape, A Slide Projector 3/4 HP Motor and a 1/3 Hp, both just rebuilt and in fb condx. Also a brand new 1/3 Hp motor, all 1725 rpm, a large Variac and much more. Don't miss this one. Min prices on some items.

And while we are doing it, if you have anything you want to sell - bring it. 10% to IRC.

We are certainly grateful to Mac for this donation to the club and the auction will make it possible for you to get gear at unusually low prices and IRC's Treasury will benefit too.

IRC ELECTION December 10th.

Be sure to turn out for this and it will be the last meeting of the year. Any 5 members in good standing can get up a slate and submit it to the Sec. 5 days before the Election. That's Dec. 5. Call Bill Lueth or Ron for a list of eligible candidates. Please don't submit a name without first getting an OK from him.

Award of Appreciation Dinner.

We had another big time seeing Bill Lueth W9AI become the recipient of the fourth annual award. Bill is a worthy contender for this honor and all 42 of those present at the dinner gave him a big hand.
